

Celebration of BGI's 30th Anniversary; Sept. 28 – 30, 2016
(IRTG-JGGE Joint Workshop on Deep Earth Volatile Cycle, Field trip)

Wednesday, 28th	Welcome
14:00	Welcome/Look back/look into the future Dan Frost/Fritz Seifert
From ca. 14:30	BBQ

Thursday, 29th	IRTG-JGGE Joint Workshop on Deep Earth Volatile Cycle (building AI, H33)
09:00	Water in the Earth's mantle: achievements from BGI and beyond Nathalie Bolfan Casanova/Clermont-Ferrand
09:40	Host-inclusion crystallography to constrain eclogite exhumation paths Ross Angel/Padova (Patrick O'Brien/Potsdam)
10:20	Geodynamics of partial melting and its geophysical expression Fabrice Gaillard/Orléans
11:00	Coffee break
11:30	Tba ((deep Earth volatile cycle (Kimberlites, UHP metamorphism) Tatsuki Tsujimori/Sendai
12:10	Tba Max Schmidt/Zurich
12:50	Lunch (Mensa-Frischraum; side room)
14:00	Diamond growth in high-pressure fluids Hélène Bureau/Paris
14:40	From Volatiles in the Earth to Shocked Meteorites: our exchange and collaborations with BGI in recent 20 years Eiji Ohtani/Sendai
15:20	Coffee break
15:50	Molten zones in the solid Earth: an electrical perspective Huawei Ni/Hefei
16:30	Three-dimensional kinetic modeling of magma crystallization David Dolejs/Freiburg
17:10	END
19:00	Dinner at Restaurant Eremitage (Bus transportation)

Friday, 30th	Field trip
ca. 10:00	Bus to Wirsberg
10:30 - 12:00	Wirsberg Geo-trail (ca. 3 km) to Weissenbach
12:30-14:00	Lunch at Landgasthof Hermes
14:00	Bus close to Stammbach
14:30- ca. 16:30	Hiking to Weissenstein (ca. 3 km), Eclogite, geology and stop at restaurant near Weissenstein Tower
ca. 17:00	Return to Bayreuth
